21           2. Information or data in either paper or electronic form  
22 concerning an agricultural producer or owner of agricultural land that,  
23 in connection with such producer or owner's voluntary participation  
24 in a program, is collected from or provided by an agricultural producer  
25 or owner of agricultural land that is related to a farmer's personal  
26 information, their agricultural operation, farming or conservation  
27 practices, environmental or production data, details on assets of their  
28 farm, or the land itself and any geospatial information maintained by  
29 the Missouri department of agriculture or by the Missouri department  
30 of natural resources based on agricultural land or operations where a  
31 farmer's agricultural operation, farming or conservation practices,  
32 environmental or production data, details on assets of their farm, or  
33 the land itself is depicted or identified shall not be considered a public  
34 record and shall not be subject to disclosure under chapter  
35 610. Further, such information shall not be disclosed to agents of the  
36 department of agriculture or the department of natural resources  
37 unless such disclosure complies with subsection 3 of this section.

38           3. The department of agriculture and the department of natural  
39 resources may disclose the information or data described in subsection  
40 2 of this section to agents only if:

41           (1) Such information or data will not be subsequently disclosed  
42 beyond such agent except in accordance with subsection 4 of this  
43 section;

44           (2) Such agent is providing technical or financial assistance with  
45 respect to the agricultural operation, agricultural land, or farming or

47 place between the parties certifying adherence to this section; or

48           (3) Such agent is responding to an agricultural disease or pest  
49 threat or other related emergency impacting agricultural operations,  
50 if the director of the department of agriculture and the director of the  
51 department of natural resources both determine that a threat to  
52 agricultural operations exists and the disclosure of information to a  
53 person or cooperating government entity is necessary to assist such  
54 departments in responding to the disease or pest threat or emergency.

55           4. Nothing in this section shall prevent:

56           (1) The disclosure of information described in subsection 2 of  
57 this section in paper format if such information has been transformed

58 into a statistical or aggregate form, or from an electronic database  
59 where such information can be compiled for distribution into a  
60 statistical or aggregate form, that prevents the information from  
61 directly or indirectly naming or identifying any individual owner,  
62 operator, producer, or operation or a specific data gathering site;

63 (2) The disclosure of information described in subsection 2 of  
64 this section pursuant to the expressed written consent of both the

67 condition of compliance with any of the departments' regulatory  
68 functions.

69 5. The participation of an agricultural producer or owner of  
70 agricultural land in, or receipt of any benefit under, any program  
71 administered by the department of agriculture or the department of  
72 natural resources shall not be conditioned on the consent of the  
73 agricultural producer or owner of agricultural land under subdivision  
74 (2) of subsection 4 of this section.

267.169. 1. For purposes of this section, the term "animal" shall  
2 mean the same as the term "livestock" as defined in section 277.020.

3 2. The following data shall not be considered a public record and

12 Animal Disease Traceability Program, or any successor program; and

13 (4) Animal tracking data collected from participants in the  
14 federal Animal Disease Traceability Program, or any successor  
15 program.

16 3. Notwithstanding the provisions of subsection 2 of this section,  
17 the director of any state agency or the state veterinarian within the  
18 department of agriculture shall release information otherwise not  
19 considered a public record subject to disclosure to the extent that the  
20 information is:

- 21           (1) Useful in controlling or preventing a disease outbreak;  
22           (2) For public safety purposes; or  
23           (3) To show particular animals or herds are not involved in a  
24 disease outbreak.

25           4. Nothing in this section shall prevent the disclosure of  
26 information:

27           (1) Described in subsection 2 of this section if such information  
28 has been transformed into a statistical or aggregate form that prevents  
29 the information from directly or indirectly naming or identifying any  
30 individual owner, operator, producer, operation, farmer, rancher, or a  
31 specific data gathering site;

32           (2) Described in subsection 2 of this section pursuant to the  
33 expressed written consent of the farmer or rancher; or

34           (3) Required by law as a condition of compliance with any state  
35 agency regulatory function.

36           5. Any person who knowingly releases information not subject to  
37 public disclosure under this section shall be considered to be violating  
38 the provisions of this section. Any entity or person alleging a violation  
39 of this section may bring an action in any court of competent  
40 jurisdiction. A court may order any appropriate relief necessary,  
41 including damages not to exceed ten thousand dollars and reasonable  
42 attorney's fees.
